## Passing a module

To be eligible for an IET accredited award, a student must achieve a minimum threshold of 30% in all assessment components of the module. This is in keeping with IET accreditation requirements.

A student not meeting the 30% threshold in an assessment component, but passing the module, may re-sit this component to restore accreditation status. In this scenario, the module will be treated as a fail except that the overall module mark remains unchanged. As long as the student has sufficient resit opportunities available, the student will be given the option to re-sit the component.
